

## Europe by Air Participating Airline Reservation Numbers in Europe

**TELEPHONE RESERVATIONS** When dialing from one country to another within Europe - dial 00 the Country Code (shown in brackets) and all numbers. If you are dialing within the country use the local numbers shown in the list, or, dial all the numbers except the Country Code. In some cases when you are within a country, the Country code is replaced by first dialing a 0 then the other numbers. If any numbers have changed please advise us at Admin@europebyair.com so we can improve service for others - thank you.
